Profile

Dedicated psychology and human development and family studies student with a bachelor degree in both fields. Experienced research assistant in cognitive science and developmental psychology.

Employment History

Childcare Intern, Child Development Laboratory, Madison

AUGUST 2023 – PRESENT

- Facilitated effective communication with all staff, families, and children
- Demonstrated high-quality planning and facilitation of daily care according to development-appropriate care in early education
- Established positive relationships with parents and their children to make smooth transition from home to school
- Incorporated inclusive practices to customize facilitation to children with different demographics or special needs

Research Assistant, Center of Healthy Minds, Madison

JANUARY 2022 – MAY 2022

- Conducted literary review on the latest trend of the target topic to facilitate better decision making of the research question
- Implemented statistical analysis of collected data with R programming
- Initiated project investigating correlation between stress and desire
- Adhered to quality standards to preserve integrity of data and findings

Research Coordinator, Cognitive Development Laboratory, Madison

SEPTEMBER 2023 – PRESENT

- Administered onboarding calls to recruit participants to the study
- Engaged in follow-up interviews and emails in the longitudinal study regarding children's daily media use
- Assisted with database organization and tracked updates for participant feedback
- Implemented safety protocols to protect participants' confidentiality and welfare

Research Assistant, Gernsbacher Laboratory, Madison

MAY 2023 – PRESENT

- Conducted data organization and cleaning on collected data
- Assisted with development of statistical analysis and analysis interpretation to pinpoint significance in the findings
- Developed reports on comprehensive overview of the research study

Front Desk Faculty, University of Wisconsin-Madison, Madison

MAY 2022 – PRESENT

- Monitored front desk traffic to support resident well-being and provide answers to all incoming questions, showing compassion for individual needs
- Managed multi-tasking work including package organization, incoming and outgoing resident registrations with timely attention
- Established effective interpersonal communications and conflict solving skills with residents and colleagues

Education

Bachelor of Science, University of Wisconsin-Madison, Madison

SEPTEMBER 2021 – MAY 2024

Four consecutive years on the Dean's List of academic excellence
